Beach Closures DRAFT 7 22 16 CW edits.docx

Hi Tom,

Here are my edits. You may want to run this chapter back by Amie and Mike to have them review. I made some comments and edits throughout. I did not read the fresh water piece as closely. If you want to clean it up, I can run an updated version by Alicia Grimaldi, the current beach coordinator in Region 1. She's out on leave until the end of next week, but she can likely read it after that.

Thanks!

caitlyn

Good morning Caitlyn,

So this is the chapter that could really use your expertise in reviewing. Based on the conversation at Sabin Point, I think we oversimplified some of the closure standards issues. So please mark this up, we welcome a constructive critique.

Thanks – Tom

**Subject:** Narragansett Bay Estuary Program - Beach Closures

Good afternoon Science Advisory Committee members and various partners involved in beach water quality,

Please find a draft sections of the Estuary Program's *State of the Watershed* technical report: **Beach Closures** - *Analysis of Saltwater and Freshwater Beach Closure Events in the Narragansett Bay Watershed*

Thanks to numerous partners for assisting with this analysis. We ask that you submit any comments, edits, and suggestions **in the word document in track changes** on or before **August 3<sup>rd</sup>**.

Please send any edits directly to **Eivy Monroy**.

Many thanks,

Tom
